

We are your single source supplier for addressing specific enclosure gasketing needs. Our products utilize a proprietary wet-coating process to ensure the very best adhesive anchorage to cellular materials. Our selected manufacturer constantly monitor advancements in polymer science and develop cutting-edge adhesive formulations for use on powder coated and paint systems guaranteeing an optimal bond.

ENCLOSURE APPLICATIONS:

**Electrical
Telecom Sets
Server Racks
Generator Sets**

Enclosure Product Offering

Die-Cut Joints

P8100, P8200, P8300 Series Neoprene/EPDM/SBR Blend

Specification grade closed cell Neoprene/EPDM/SBR blend gaskets are available in soft, medium and firm densities

S600 Series Silicone

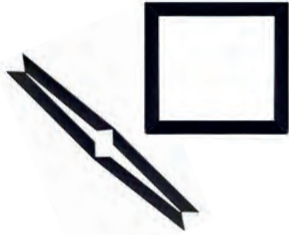

Medium density silicone foam - UL recognized for flame retardance and gasketing

U6100 Series Urethane

Medium density urethane foam gaskets with open cell structure - prevent air, dust, light infiltration and recovers to original thickness after extended periods of compression

U6300 Series Urethane (Mylar Supported)

Mylar supported medium density urethane foam gaskets with open cell structure - prevent air, dust, light infiltration and recover to original thickness after extended periods of compression

Pop-Out Design

P9100 & P9200 Series EPDM

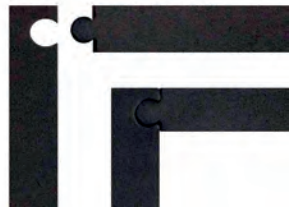

Closed cell EPDM gaskets create a water tight, chemically resistant seal in a wide range of temperatures

P8500 Series Polyurethane

Cost-effective open cell gaskets - resist water and moisture, are air permeable, and remain flexible over extended periods of demanding use

High Bond "PHB" (VHB Alternative)

Ideal for the high performance bonding, fastening and joining of metal stiffeners and brackets to internal frames - allows for thermal expansion and contraction, eliminating stress disfiguration

Die-Cut Joints

Enclosure Products: Quick Reference User Guide

part #	Material	Outdoor	indoor	Compression Set	UL94HF1 Self Extinguish	UL94HBF Self Extinguish	UL50 & UL508	Suitable Perm. Seal	Suitable For Access Door
P8100	Neoprene/EPDM		x	FAIR	x		x	x	
P8200	Neoprene/EPDM		x	FAIR	x		x	x	
P8300	Neoprene/EPDM		x	FAIR	x		x	x
